EDUCATION

B.Sc Computer Science,
University of Victoria, BC, Canada
Sept 2017 - Dec 2021

- GPA: 3.0/4.0
- Data Structures and Algorithms
- Software Development
- Database Systems
- UI/UX Design
- Computer Architecture

SKILLS

(Years of experience after each item)

- Languages:
 - Java 3 | Python 3 | C 1 | Javascript 2 | Assembly 1 | C 1
- Frameworks/Environments:
 - Angular 1 | React 0.5 | Node 2 | Express 2
- Databases:
 - MongoDB 1 | MySQL 1 | PostgreSQL 0.5
- Other:
 - Github 2 | Heroku 1 | Cloudinary 1 | Figma 2 | Balsamiq 2 | Wordpress Elementor 1 | Postman 1 | Wireshark 1 | Salesforce 1 | SparkAR Studio 1 | VSCode 2 | Ahref 0.5

EXPERIENCES

Digital Advancement Intern (Analyst),
The International School of Kuala Lumpur, Malaysia

Jan 2022 - June 2022

- Realized web pages for the school website. Designs were usually given as Balsamiq/Wireframe low-fidelity mock-ups and then realized with HTML, CSS, Bootstrap, and Elementor
- Conducted research to fix or replace the current alumni CRM platform.
- The research consisted of testing software, documenting errors, communicating with SAAS companies, analyzing schemas, conducting SWOT analyses, and writing up design specifications
- Fixed and updated the school's SEO and monitor its performance through Ahrefs
- Assisted in the creation of marketing media, and executing or planning marketing campaigns, given a customer flow.
- Updated and centralized department's data on 500+ alumni by compiling google and excel spreadsheets while using third-party plug-ins or custom scripts to better visualize or sort data

VP Marketing and Communications
(Student-Run Volunteer),
AIESEC Victoria/UVIC, Victoria, BC

Dec 2018 - Dec 2019

- *Planned and executed various marketing activities from tabling, lead generation, sales meetings and presentations, cold calling, video editing, salesforce, and social media management.*
- *Worked with university faculties to secure scholarships and tailor internships to students*

FEATURED SAMPLED PROJECTS

VanIsland Views | Open Source

- A full-stack website inspired by yelp for fellow camping enthusiasts to post, rate, and review camping locations/experiences on Vancouver Island.
- The website comes with full CRUD functionality, user encryption and permissions, sessions and cookies, map widgets, and database integration
- Tools used: Node, Express, HTML, CSS, JS, EJS, Bootstrap 5, MongoDB, Mongoose, Cloudinary, Heroku

Banking Account Dashboard | Open Source

- Solo project for a mock tablet to phone-screen-sized (flexible) user dashboard for a generic banking account
- Designs (Layout) were given as photoshop files and then translated into HTML and CSS
- Tools used: HTML, CSS, Googlefonts

ISKL Web Pages Ex1 Ex2 Ex3 | Internship

- Web pages for ISKL's main website and alumni platform were built up using WordPress Elementor, and embedded HTML or presets respectively.
- Page designs were given as Balsamiq mock-ups with specifications and then realized after.
- Tools used: WordPress Elementor, HTML, CSS, Bootstrap 4

Sunny Raccoons | Academic

- Team design project for a design course. I made the front-facing company website.
- For the design class, we are to be clients and analysts to different groups of people. As analysts, our company, Sunny Taccons, are tasked with acting as a company and designing a web and mobile app, UI/UX, and going through the systems analyst approach to solving issues.
- The Figma mockups can be found [here](#).
- Tools used: Figma, HTML, CSS, Bootstrap
